Madrid, Oct. 31. From *Cadiz* of the 20th Instant they write, That the Moors before *Tangier* had raised three Batteries against the Town, two of two Guns each, and a third of one Gun; and that they were undermining *Pole-Fort*, which the English had rebuilt; That the 200 Spanish Horse were at *Tariffa*, ready to Embark for *Tangier*; and that Sir *Palmes Fairborne* had presented the Commander of those Troops with a rich Sword and Belt, and had sent 500 Pieces of Eight to be distributed among the Soldiers. From *Malaga* of the 22 they tell us, That Sir *John Berry* in the *Leopard*, the *Foresight*, and four rich Merchant Ships, arrived there the 16 from *Smirna*; and that the Sunday before, a French Vessel arrived there from without the *Streights* mouth, who reported, That passing on the 19th near *Tangier*, they heard very much shooting, which made them conclude that the English and the Moors were in Action. From *Alicant* of the 14th they tell us, That Captain *Story* in the *Antelope* was arrived there, with several Ships under his Convoy from *Cadiz* bound for *Italy*.

Lintz, Octob. 23. There are lately arrived Letters from the Emperors Resident at *Constantinople*, which give an account, as we are informed, That the Grand Vizier had acquainted him, that the Grand Signior was willing to renew the Peace between the two Empires for 12 years longer, but that the Grand Signior would reserve to himself a liberty to assist the Hungarian Malecontents, whenever he thought fit, which we may be confident the Emperor will never yield to.

Hydelberg, Octob. 23. Several Complaints have been made to our Elector of the proceedings of the French, *viz.* That on the 15th Instant several French Horsemen came to *Kirchberg*, and demanded to be received into the Town, and because they were not, for that they had no Letters of Health, committed several insolencies in the neighborhood. That the French have summoned *Spanheim*, *Naumburg*, and *Schwarzerden* to send Deputies to *Metz* to do Homage to the French King, on pretence that those places are dependences of the County of *Veldentz*. That 100 of the French Kings Guards arrived some days since at *Lautereck*, having Orders to summon that place, *Bingen*, *Frankenthal*, *Worms*, and other places on this side the *Rhine* likewise to send Deputies to do Homage. That the Inhabitants of *Hockenſulzen* have been required to appear by some persons appointed on their behalf, on the 25th Instant before the French Commissioners at *Winweiler*, in order, as is imagined to swear Fealty to the French King. That the Governor of *Weissenburg* has sent an Order of the Royal Chamber at *Brisac*, to the Electors Officers in the Baillage of *Germersheim*, by which they are required to do Homage as aforesaid in a months time. That the Tenth of Wine in the said Baillage, belonging to his Electoral Highness, is seized by the French, which they pretend they will only detain till the differences between their King and his Electoral Highness be adjusted, but we have reason to believe, that so soon as the Wine is ready, they will carry it away, as has been done in the Baillage of *Landecken*, by Order of the Governor of *Weissenburg*; and it is said, that the French have Orders to take the Castle of *Couzenberg* near *Creutzenach*, and if any resistance be made, to burn the Town.
